

Technical data: Safety mat edge

Stand: 02.2025

Fall protection mat edge

Corner connector

Safety mat edge	Edging: Height/width	
Material: galvanised steel DX51D+z275MA-C	Material thickness: 2mm	

Profile length: 2400 mm

Special edging (minimum height 80 mm) and lengths on request.

Width-optimised fall protection edge

The safety mat edging has a width-optimised safety edge (60 mm) for additional protection and is therefore ideal for edging safety mats.

Safety mat edge for straight-line installation

The safety mat edging is available in 90/60 mm edging and is only suitable for straight installation.

Design for organic moulds: (see reverse for illustration/description)

The purpose of this information is to advise you to the best of our knowledge based on our tests, experience, tests carried out, standards applied and the rules of the trade.
